

Available only from the technology experts at SMART PARK™

The Smart Park™ LCD Range has been designed as the perfect mix and match vision solution for your passenger, commercial or fleet application.

The screens are available in 4", 5.6" & 7" and offer unsurpassed image resolution and clarity. The housings are well constructed in a robust ABS plastic housing and finished in a sleek matt finish. Various mounting brackets are available.

All of the screens are modular and are designed to be completely compatible with the entire Smart Park™ camera range. The screens are ready to plug into any one of the Smart Park multiple display control modules or digital video recorders.

Being designed to integrate with the Smart Park™ camera range ensures a minimum of cabling and a single power source requirement for the entire camera system. We also have smart features such as built in speakers to hear sound from microphones built into Smart Park™ commercial cameras and built in light meters to reduce screen brightness at night.

Smart Park™ offers a number of prepackaged kit that combines the most suitable camera and LCD combinations—providing an easy to stock & install solution to every market requirement.

All Smart Park™ products are made from the highest quality components to exacting ISO/TS16949 and ISO9001 standards.

All products are warranted for 3 years. For more exclusive automotive technology products, please visit our website at www.smartpark.net

Specifications

5.6" LCD MONITOR

Contrast Ratio:	300
Resolution:	224640 pixels
Dimensions (mm):	150 x 126 x 27
Weight:	479g
High Brightness:	200 cd/m2
Power Consumption:	<5w
Operating Temp:	-30degC to +85degC
Storage Temp:	-30degC to +85degC
Colour System:	PAL/NTSC (Auto select)
Viewing Angle:	up 45 down 65 side 65
Menu Languages:	EN, FR, DE, SP, JP

7" LCD MONITOR

Contrast Ratio:	300
Resolution:	336960 pixels
Dimensions (mm):	195 x 128 x 27
Weight:	547g
High Brightness:	350 cd/m2
Power Consumption:	<5w
Operating Temp:	-30degC to +85degC
Storage Temp:	-30degC to +85degC
Colour System:	PAL/NTSC (Auto select)
Viewing Angle:	up 45 down 65 side 65
